New Guidelines	School Screening (2) K-12- preschool
	School System Volunteers
	Renal Dialysis unit screening (4) and f/up
	Transplant unit screening
	Homeless
	Role of TB Controller
	INS detainees -reporting/disposition
	Use of Quantiferon
	Co-management
	Pre-employment TB Screening (2)
	Shelters
	TB Clinic Protocols
	Screening, including QFT (2)
	Return to Work

Suggestions:	Set up ongoing mechanism for review/revision by original workgroup, new guidelines group
	Format Guidelines and Binder to be user friendly, easy to find
	Set up plans for dissemination, evaluation, and future review/revision of new guidelines
	Use shall and must and cite the law/reg if mandated (2)
	Review all statements 5 year minimum
	?? Finds MDR Guideline most useful
	Exec sums for longest guidelines
	Ongoing updates on MDRTB and on Co-TX of HIV
	Please notify TB controllers about new activities and new guidelines via email
	MS Word documents, so guidelines can be incorporated into local program policies and procedures, customized, or forms used electronically
	Guidance on TB Screening in low risk areas. Using the targeted screening in the pre-employment setting, makes us ask that our HR people are concerned about, so we find ourselves placing skin tests on low risk individuals
	Website Frequent Questions page-
	TB Screenings for above in a grid -yrs, months, requirements etc
	Quantiferon if used by Jail or shelter how often the blood draw should be done
	Guidelines for extrapulmonary- ?s come up with whether or not to case manage them or not- DOT? If not-then public health responsibility
	Links in Guidelines and website to resources, references, other guidelines, etc.; roster updated periodically on website; Executive summaries for long guidelines; pocket-sized cards and booklets for MDs based on Treatment Guidelines
	Thank you for having the guidelines on the website
